

a2
sub
B
17. A detergent component in the form of a particle wherein the component comprises a mixture of cyclic amine based polymers, oligomers or copolymers and hydrophobically modified cellulosic based polymers or oligomers.

18. A detergent component according to claim 17 wherein the particle is an agglomerate and further comprises a carrier material selected from the group consisting of inorganic salts, silicates, aluminosilicates, anionic surfactants, nonionic surfactants and mixtures thereof.

Conclusion

Support for these amendments is found in the claims as originally filed. These amendments are entered to bring the claims into conformance with 37 CFR §1.75; no new matter is added.

Respectfully submitted,

By M. Dressman
